ARTISAN&ARTIST*

Established 1991 in Tokyo

High Quality craftsmanship

Meticulous choice of materials and precise sewing.

By skilfully combining these attributes,
the soul of the craftsmen is projected into every product,
while keeping in mind the person who will someday use that piece of art.

This exceptional craftsmanship is a testimony to
Japan's relentless pursuit of perfection, embodied in every product
that is proudly designed and produced.

ACAM

Signature Series

With great emphasis on materials and design, this camera bag series fulfills the concept of classic simplicity. The main body is made of water- and stain-resistant canvas. The bags feature excellent padding for protection which can be removed or rearranged to accommodate a variety of items. With a focus on functionality, the bags are the perfect combination of simple design and our passion for the best materials.

ACAM-BS

Basalt Series

"Basalt" is a series that conveys the feeling of strong and impressive ancient basalt rocks. We aimed to transmit a sense of usefulness and perfect functionality through a rigorous style and design. Produced with light and ageing-resistant material, as well as PVC leather, also found in the interiors of luxury cars. The density of the interior EVA foam protects the precious equipment. There are many practical features included in these items: the equipment can be easily taken out of the bag, thanks to the large openings and the loop-sized handles, and there is easy access to the inner pocket. There are three styles available, backpack, shoulder or sling bag, that you can choose according to your need of style and use.

GDR

City Bag Series

ARTISAN&ARTIST brings a unique design solution, adapting a “garden- style” bag to camera users. A wide opening, a stable wide bottom and exterior pockets make these bags ideal for a day of shooting photographs in the city. Other features of the bags include detachable inner cases with movable partitions. A special type of thick nylon on the bottom of the bag ensures superior durability and stain resistance, as well as a detachable shoulder strap pad to help ease the burden on your shoulder.

Silk Cord Straps

Kumihimo Series

Hand woven by traditional long established artisans of Kyoto, Silk Cord Strap is one of the most unique camera straps in the world. It is soft, gentle on skin yet flexible and strong and can be used as a hand strap as well – a unique and beautiful accessory from Japan. The straps have an added protection: leather flaps for ring-type attachment straps to prevent the split rings from touching and accidentally scratching the camera body.

Story

“Flynn Camera Strap” (this product), developed by Artisan&Artist, is a strap inspired by the paracord strap used on the American photojournalist Sean Flynn’s Leica M2 camera. The strap combines leather and paracord material with a great functionality. The length on both left and right sides can be easily adjusted. The tip of the paracord never comes loose naturally, as each cord is woven carefully in “Celtic button knots” by artisans, enabling the user to easily hold the knot when adjusting the strap. This model, for usage with compact cameras, has a newly developed “Loop-strap attachment.”

In November 2018, a Leica M2 from 1965 with a Summilux-M 1.4/35mm was sold by the LEITZ PHOTOGRAPHICA AUCTION at a very high amount. This camera went through many battlefields with the photojournalist “Sean Flynn,” son of Hollywood actor Errol Flynn, who played an active role mainly at the Vietnam war while also being an actor himself. He participated in many parachuting missions with the US military and took many shocking photos and delivered many facts of the battlefield to the world. The camera which he left, after he went missing in 1970 when he was attacked by Vietnamese communist guerillas in Cambodia, is highly praised by collectors. A paracord (strong rope used for parachutes) that he probably procured from the battlefield was used as a strap on his favorite camera, which became a powerful element of this valuable camera.
